

Recombinant Human MOB4A

Catalogue No.:	P6087
Species:	Human
Uniprot ID:	Q7L9L4
Expression Region:	1-216
Host:	E.Coli
Tags:	N-terminal His Tag or N-terminal His-IF2DI Tag, determined during production process
Molecular Weight:	TBD
Purity:	Greater than 95% as determined by SDS-PAGE
Formulation:	Lyophilized from a 0.2 μ m filtered solution in 10 mM Hepes, 500 mM NaCl with 5% trehalose, pH7.4
Reconstitution:	Centrifuge the vial prior to opening, reconstitute in sterile distilled water or buffer of interest to a concentration of 0.1-1mg/ml by gently pipetting 2-3 times, don't vortex.
Storage:	The lyophilized protein is stable at -20°C for up to 1 year, the protein solution can be stored at 2-8°C for up to 1 week. For extended storage, it is recommended to further dilute in a buffer containing 0.1% BSA (make sure BSA will NOT interfere with your experiment) and store in working aliquots at -20°C to -80°C for 6 months. Avoid repeated freeze/thaw cycle.

- Synonyms:** MATS 2, MATS2, MGC33910, Mob 1A, Mob 1B, MOB 4A, MOB kinase activator 1B, Mob1 homolog 1A, MOB1 Mps One Binder homolog B, MOB1 Mps one binder kinase activator like 1A, Mob1A, Mob1B, MOBKL 1A, MOBKL1A, MOL1A_HUMAN, Mps one binder kinase activator like 1A, Mps one binder kinase activator-like 1A, Protein Mob4A
- SDS-PAGE:** Test in progress
- Safety Note:** This product is intended for research and manufacturing uses only. It is not a diagnostic device. Product degradation will result from multiple freeze/thaw cycles. It is suggested that the antigen be stored in use size aliquots and thawed just prior to use. This material has been inactivated, however as with all biological materials, it should be handled as potentially infectious. The user assumes all responsibility for care, custody and control of the material, including its disposal, in accordance with all regulations.
